General Manager
Digital Broadcasting & Spectrum Management

Dear Sir / Madam,

I hope that you value Australian democracy & culture as well as I do & that it follows there should be no further loss of media diversity when this country has the unenviable position of highest concentration of media ownership in the Western world!

There is so great a need for an independent national broadcaster free from media owners, free from any fear of advertising & sponsorship to be able to exist, produce programs which tap into Australian culture & use our talented producers, actors & script writers. I cannot stand the news being interrupted by all sorts of inane advertisements!

Yours faithfully
(Ms) B. McIndyre
