

**NETWORKING THE NATION PROGRAM**  
**PROJECT FUNDING LIST – NEW SOUTH WALES**  
**As at JUNE 2005**

**Note: Some of the Project Descriptions are currently under review**

<b>Project Number</b>	<b>Project Name</b>	<b>Project Recipient</b>	<b>Project Description</b>	<b>NTN Funding Provided</b>
NSW1997/001	Outback Region Telecoms Business Plan	Outback Regional Development Organisation Inc.	This project identified telecommunications needs and options in the Far West region of NSW.	\$6,000
NSW1997/003	Hunter Telemedicine Centre	Hunter Area Health Service	This project installed videoconferencing units in nine hospitals in the Hunter region of NSW - John Hunter Hospital, New Lambton; James Fletcher Hospital, Newcastle; Maitland; Morisset; Muswellbrook; Nelson Bay; Westlake; Merriwa; and Murrurundi. The project trialed the use of telepsychiatry and tele-interpreting through this mechanism, while also being made available for use by other sectors of these communities.	\$854,628
NSW1997/010	Northern Inland Online – Stage 1	New England North West Regional Development Board Inc	This project provided local call Internet access for the first time to three communities in the New England area of NSW. The project also developed, maintained and publicised locally, a regional website to promote regional communities, businesses, services and attractions online; and installed and operated a videoconferencing unit to offer that service to all sectors of the regional community.	\$358,900
NSW1997/012	Northern Rivers Regional Marketing Cooperative Study	NSW Northern Rivers Regional Internet Marketing Cooperative Inc	This project involved a business planning study into a proposed marketing cooperative to capture the potential of online services in stimulating and supporting market opportunities for a range of industries in the Northern Rivers region of NSW.	\$39,969
NSW1997/016	Hunter Region Telecommunications Strategy	Hunter Economic Development Corporation	This project produced a telecommunications strategy for the Hunter region, identifying telecommunications needs and options.	\$50,000

NSW1997/023	Networking the Northern Rivers - Stage 1	Norlink Ltd	This project developed a demand aggregation study and associated business case, to stimulate enhanced telecommunications infrastructure the Northern Rivers region of NSW. It also conducted awareness and skills raising courses in the use of online services across the region.	\$150,000
NSW1997/026	Heartland E-Commerce Project	Central Economic Zone (CEZ)	This project developed a regional Internet portal, heartland.com.au, featuring a dynamic database of merchants across the Central Economic Zone region and a sophisticated online trading system with a particular emphasis on business-to-business transactions.	\$275,000
NSW1997/028	Cabonne Shire Cyber Cafe Network	Cabonne Council	This project established public Internet access facilities in 'cyber cafes' in Yeoval, Eugowra, Cudal and Cargo, promoting and providing Internet access and training for local communities. A Cabonne 'gateway' website, www.cabonnecountry.com, was also developed to promote the Shire and local businesses.	\$162,214
NSW1997/032	WESTNET - A Community Services Network	Tri Community Exchange	This project enhanced the online collection, coordination and exchange of an increasing range of information and views within the community services sector of Western Sydney and Central NSW, as a model for future adaptation in other non-metropolitan areas.	\$407,500
NSW1997/034	South Coast Telecommunications Network Study	Eurobodalla Shire Council	This project conducted a demand aggregation exercise and other preliminary work on identifying and assessing technical options for providing enhanced broadband and other telecommunications services on the NSW South Coast.	\$165,000
NSW1997/041	Riverina Region Telecommunications Strategic Plan	Riverina Regional Development Board	This project produced a telecommunications strategy for the Riverina region, identifying telecommunications needs and options.	\$50,000
NSW1997/046	Northern Rivers Community Services /Access	Northern Rivers Social Development Council Inc	This project established Public Access Resource Points in 12 community service agencies throughout the region, which covers Tweed Heads in the north to Ulmarra and Nymboida in the South. This enabled the service providers and their disadvantaged target groups in particular to become familiar with the Internet and online services.	\$105,000
NSW1997/047	Tumut Shire Telecentre Network	Tumut Shire Council	This project established a telecentre in Tumut, and outreach centres in Adelong, Batlow and Talbingo, promoting and providing Internet access, training and selected other business services to the local community.	\$79,764
NSW1997/052	Coolah Quality Communications	Coolah District Development Group Inc	This project established a telecentre in Coolah and outreach centres in Cassilis and Dunedoo, promoting and providing Internet access, training and selected other business services	\$329,165

			for the local communities. The project also brought local call Internet access to the area for the first time.	
NSW1997/053	Murray Region Telecommunications Strategy	Murray Regional Development Board	This project produced a telecommunications strategy for the Murray region, identifying telecommunications needs and options.	\$50,000
NSW1998/057	Hunter Region Tourism E-Commerce Trial	Hunter Regional Tourism Organisation	This project trained and supported a range of tourism businesses in the Hunter region in the more productive use of online services. It included the development of websites with innovative applications for project participants, including some trialling of e-commerce.	\$304,000
NSW1998/064	Holiday Coast Communications Strategy	AHC Regional Development Board	This project produced a telecommunications strategy for the Holiday Coast region, identifying telecommunications needs and options.	\$50,000
NSW1998/070	Central Coast Regional Telecommunications Strategy	Central Coast Economic Development Board	This project produced a telecommunications strategy for the Central Coast region, identifying telecommunications needs and options.	\$50,000
NSW1998/072	Boorowa Mobile Telephony	Boorowa Council	This project provided digital mobile phone coverage for the town and surrounding areas of Boorowa.	\$100,000
NSW1998/074	Bellingen Telecentre	Bellingen Shire Enterprise Support Team	This project established a telecentre (now closed) in Bellingen, promoting and providing Internet access, training and selected other business services to the local community.	\$55,000
NSW1998/075	Coonabarabran Telecentre	Warrumbungle Rural Advisory Service Inc	This project established a telecentre in Coonabarabran, promoting and providing Internet access, training and selected other business services to the local community.	\$108,000
NSW1998/081	BAIT - Ballina Access to Information Technology	Ballina District Community Services Association Inc	This project established a public Internet access centre in Ballina, also providing training and support in the use of online services by the local community.	\$100,000
NSW1998/083	Orana Region Telecommunications Strategic Plan	Orana Regional Development Board Inc	This project produced a telecommunications strategy for the Orana region, identifying telecommunications needs and options.	\$50,000
NSW1998/084	Gloucester Telecentre	Gloucester Community Training Inc	This project established a telecentre in Gloucester, promoting and providing Internet access, training and selected other business services to the local community.	\$104,165
NSW1998/086	Coonamble Telecentre	Coonamble Shire Council	This project established a telecentre in Coonamble, promoting and providing Internet access, training and selected other business services to the local community.	\$200,600
NSW1998/087	Nambucca Goori Youth Website & Training	Nambucca Shire Council	This project provided Internet access and training for the indigenous community of Bowraville in the Nambucca Shire. The project also developed a culturally appropriate website, including provision for the target group and more recently elders in particular, to develop and disseminate their own online content, and is now extending to opportunities in multimedia.	\$133,989
NSW1998/088	Armidale Aboriginal	University of New England	This project investigated the telecommunications needs and	\$58,400

	Community Access to Communications Technology		options of Armidale's indigenous community.	
NSW1998/091	Northern Rivers Internet Marketing Prototype	NSW Northern Rivers Regional Internet Marketing Cooperative Inc	This project developed and trialled a prototype of an online trading system to more effectively market agribusiness products, from the Northern Rivers region in particular.	\$83,250
NSW1998/092	Hunter Community Internet Access	Hunter Internet Access Association	This project investigated the feasibility of establishing in the Hunter region, a 'community data exchange', where relevant stakeholders would co-locate equipment and services, enabling more effective sharing, carriage and switching of local network traffic.	\$21,000
NSW1998/098	Central West NSW Regional Telecommunications Strategy	Central West Regional Development Board	This project produced a telecommunications strategy for the Central West region, identifying telecommunications needs and options.	\$46,000
NSW1998/103	Remote Hunter Community Internet Access	Upper Hunter Regional Library	This project provided Internet access facilities, and some associated support for users, in the libraries of Aberdeen, Denman, Merriwa and Scone.	\$31,530
NSW1998/118	The Reach Out! Bush Network	Inspire Foundation	This project established 20 public Internet access sites across rural NSW, in Bourke, Brewarrina, Bulli, Canowindra, Cumnock, Dubbo, Gloucester, Glenn Innes, Gosford, Grenfell, Maitland, Manilla, Mudgee, Narrabri, Parkes, Purfleet, Singleton, Tamworth, Taree and Wellington. The project targeted the youth of the participating communities in particular, providing technology resources to assist them with their education, career development and leisure opportunities.	\$315,000
NSW1998/121	Lithgow Community Technology Centre	Lithgow City Council	This project established a telecentre in Lithgow, promoting and providing Internet access, training and selected other business services to the local community.	\$100,000
NSW1998/127	Videoconferencing for Remote Communities	Port Macquarie College of Adult Education	This project installed, promoted and supported the use of videoconferencing facilities in the communities of Barraba, Bombala, Bourke, Condobolin, Port Macquarie and the Tomaree Peninsula.	\$318,500
NSW1998/131	Central Coast Seniors PC/IT Empowerment Project	The Council of the Ageing (NSW) Inc	The project developed and piloted an approach to enhancing the motivation and capacity of older people in the Central Coast region of NSW to access and utilise online services.	\$50,000
NSW1998/132	Cobar Internet Cafe	Outback Business Enterprise Centre	This project established a telecentre in Cobar, promoting and providing Internet access, training and selected other business services to the local community.	\$91,100
NSW1999/136	Narromine Local Call Internet Access	Narromine Shire Council	This project installed a Point of Presence, providing local call Internet access for the first time in Narromine Shire based on a region-wide tender exercise, conducted by the Council, of benefit to the wider Orana region.	\$133,267
NSW1999/143	Hunter Region On Line	Newcastle & Hunter	This project developed and conducted a comprehensive	\$400,000

		Business Chamber	program of awareness raising and training for all sectors of the Hunter community in accessing and utilising online services.	
NSW1999/144	CoastCall - Holiday Coast Website and Internet Training	Southern Cross University	This project developed a comprehensive, dynamic regional website to stimulate business opportunities and networking in and outside the Holiday Coast region of NSW. This was backed by a wide range of awareness raising and training courses for all sectors of the regional community in accessing and utilising online services.	\$385,750
NSW1999/145	Eden Community Access Centre	Eden Community Access Centre	This project established a telecentre in Eden, promoting and providing Internet access, training and selected other business services to the local community.	\$161,599
NSW1999/146	Central West Internet Access	Central West Community College Inc	This project established public Internet access points in Bathurst, Cowra, Parkes, Forbes and Mudgee, backed by training and awareness raising in the use of online services.	\$401,108
NSW1999/147	TAFTCo	The Australian Freshfood Trading Company Ltd	This project established and implemented an online system to stimulate, coordinate and track the sale of agribusiness products nationally and internationally, backed by tailored training and support for participating growers and their families.	\$894,000
NSW1999/150	Orana Region Telecommunications Development	Orana Regional Development Board Inc	This project engaged a facilitator to advance initiatives from local communities to enhance access to telecommunications services, as well as networking ongoing projects in that sector across the Orana region. The project also involved a demand aggregation and business case exercise to attract enhanced telecommunications services to the region.	\$245,000
NSW1999/152	Northern Rivers IT Coordinator	Norlink Ltd	This project engaged a facilitator to stimulate and advance initiatives from local communities to enhance access to and utilisation of telecommunications services, as well as networking ongoing projects in that sector across the Northern Rivers region.	\$110,840
NSW1999/158	Networking the Hunter IT Coordinator	Hunter Economic Development Corporation	This project engaged a facilitator to stimulate and advance initiatives from local communities to enhance access to and utilisation of telecommunications services, as well as networking ongoing projects in that sector, across the Hunter region.	\$90,000
NSW1999/159	Gilgandra Telecentre	Gilgandra Shire Council	This project established a telecentre in Gilgandra and an outreach centre in Tooraweenah, promoting and providing Internet access, training and selected other business services to the local communities.	\$185,000
NSW1999/160	Orana Region Videoconferencing Network	Orana Education Centre	This project established a videoconferencing network across the Orana region, and in the towns of Dubbo, Gilgandra, Nyngan, Cobar, Coonabarabran, Coonamble and Coolah, in particular, promoting and supporting a wide range of innovative uses of those facilities.	\$592,218
NSW1999/162	Riverina Region	Riverina Regional	This project conducted targeted training and awareness raising	\$176,800

	Telecommunications Strategy II	Development Board	programs to stimulate the utilisation of online services by the broader community, managed by a project coordinator who also advanced other aspects of the telecommunications strategy previously funded under the NTN program.	
NSW1999/163	Bulahdelah Telecentre	Bulahdelah & District Progress Association	This project established a telecentre in Bulahdelah, promoting and providing Internet access, training and selected other business services to the local community.	\$117,555
NSW1999/164	Dungog Telecentre Network	Dungog Shire Council	This project established a telecentre in Dungog, and outreach centres in Paterson, Gresford and Clarence Town, promoting and providing Internet access, training and selected other business services to the local communities.	\$167,000
NSW1999/165	Batlow Mobile Telephony	Tumut Shire Council	This project provided digital mobile phone coverage in Batlow and the surrounding area.	\$110,000
NSW1999/166	Northern Inland Online – Stage 2	New England North West Regional Development Board Inc	This project conducted a tailored training program for over 700 people and businesses across the region to raise awareness and skills in utilising online services, providing a further stimulus to the use of the regional website developed under the project's first phase. It also installed facilities that have provided local call Internet access for the first time to 10 regional communities, in addition to the three other communities getting NTN-funded local call access in the preceding phase.	\$924,280
NSW1999/169	Central West NSW Regional Telecommunications Service	Central West Regional Development Board	This project engaged a facilitator to conduct targeted technology demonstrations and awareness raising and training programs for the broader community in the use of online services, in the Central West region.	\$160,000
NSW1999/172	Hunter Centre Access Project	Hunter Region Neighbourhood Centre Forum	This project established public Internet access points in 19 community service agencies throughout the Hunter region, enabling the service providers and their disadvantaged target groups in particular to become familiar with the Internet and online services.	\$118,320
NSW1999/174	Scone Internet Café & Learning Centre	Scone Shire Council	This project established a telecentre in Scone, promoting and providing Internet access, training and selected other business services to the local community.	\$129,880
NSW1999/175	Merriwa Online	Merriwa Shire Council	This project established a telecentre in Merriwa, promoting and providing Internet access, training and selected other business services to the local community. The project also installed a Point of Presence providing local call Internet access for the first time in the area.	\$255,781
NSW1999/181	Port Stephens Telecentre	Port Stephens Council	This project established a telecentre in Raymond Terrace, promoting and providing Internet access, training and selected other business services to the Port Stephens community.	\$154,080
NSW1999/182	Hillston Mobile Telephone Coverage	Carrathool Shire Council	This project provided digital mobile phone coverage for the town and surrounding areas of Hillston.	\$90,000

NSW1999/184	Cobar Shire Internet Access	Cobar Community Development Station Inc	This project installed a Point of Presence, providing local call Internet access for the first time in Cobar Shire.	\$85,000
NSW1999/188	Warren Shire Local Call Internet Access	Warren Shire Council	This project installed a Point of Presence, providing local call Internet access for the first time in Warren Shire.	\$99,526
NSW2000/195	Weddin Information Technology Services (WITS)	Weddin Shire Council	This project established a telecentre in Grenfell, and outreach centres in Greenethorpe, Caragabal and Quandialla, promoting and providing Internet access, training and selected other business services to the local communities. The project also installed a Point of Presence, providing local call Internet access for the first time in the area.	\$188,100
NSW2000/197	Coolah Shire Mobile Telephone Coverage	Coolah Shire Council	This project provided digital mobile phone coverage in the Coolah district.	\$90,000
NSW2000/198	Mudgee Local Internet Centre	Mudgee Region Business Enterprise Centre Inc	This project established a telecentre in Mudgee and an outreach centre in Gulgong, promoting and providing Internet access, training and selected other business services to the local communities.	\$170,000
NSW2000/199	Nyngan NetWork	Bogan Shire Council	This project established a telecentre in Nyngan, promoting and providing Internet access, training, and selected other business services to the local community. The project also installed a Point of Presence providing local call Internet access for the first time in the area.	\$204,200
NSW2000/200	Internet Tools for NSW Local Government	Local Government and Shires Association	This project developed a functional website, compatible across the NSW local government sector, enabling Councils to better deliver a range of locally relevant content and basic services online, backed by tailored training for selected Council staff.	\$585,215
NSW2000/201	Lower Lachlan Community Internet Access	Lower Lachlan Community Services Inc	This project established a telecentre in Lake Cargelligo, promoting and providing Internet access, training and selected other business services to the local community. The project also installed a Point of Presence providing local call Internet access for the first time in the area.	\$175,334
NSW2000/202	Joint Commonwealth/NSW Community Technology Centre Program	NSW Department of Information Technology and Management	This project features a funding pool which contributes towards the establishment and operation of a target of 55 new Community Technology Centres (CTCs) throughout rural and regional NSW. The CTCs promote and provide Internet access and training to their local communities, as well as a range of business and government services. The above funding pool is supplemented by another provision which includes a particular focus on developing the capacity of both new CTCs, and the 30 or so existing NTN-funded centres to deliver a strategic range of training and videoconferencing services in their communities. This increasing range of initiatives will maximise the value all targeted centres offer to local residents and visitors, while also bolstering the centres' own income streams and sustainability. The project targets towns of 3,000 people or	\$9,540,527

			less in NSW, although other locations were also considered on their merits. – PROJECT IS ACTIVE	
NSW2000/203	Tumbarumba 2000 Online	Tumbarumba Growth Committee	This project installed a Point of Presence, providing local call Internet access for the first time in Tumbarumba Shire, backed by promotion of the use of online services. The project also extended local call access to Cabramurra, Ournie, Tintaldra, Towong, Khancoban, Biggara and Nariel and enhanced existing Internet services in Corryong, Victoria.	\$83,027
NSW2000/204	Networking Hunter Aboriginal Communities	Yarnteen Aboriginal & Torres Strait Islander Corporation	This project established public Internet access points in five indigenous community based organisations - Yamuloong, Morriset, Kurri Kurri, Karuah and Tanilba Bay - across the Hunter region, also providing training and selected other services	\$150,770
NSW2000/207	Brewarrina Point of Presence	Brewarrina Shire Council	This project installed a Point of Presence, providing local call Internet access for the first time in Brewarrina Shire.	\$94,500
NSW2000/208	Brewarrina Mobile Telephone Coverage	Brewarrina Shire Council	This project provided digital mobile phone coverage for the town and surrounding areas of Brewarrina.	\$140,000
NSW2000/210	Networking the Northern Rivers - Stage 4	Norlink Ltd	This project advanced the earlier NTN-funded work on attracting enhanced telecommunications infrastructure and services to the Northern Rivers region.	\$30,000
NSW2000/211	Gordon Estate Telecentre	Dubbo Chamber of Commerce & Industry Inc	This project established a telecentre in the Gordon Estate in west Dubbo, promoting and providing Internet access, training and selected other business services to the local indigenous community, with a particular focus on youth.	\$108,250
NSW2000/212	e-Nambucca	Nambucca Shire Council	This project established a number of public Internet access points in the Nambucca Valley, at Valla Beach and in selected community bodies in Macksville. It provided after hours access at existing facilities in Scotts Head and Bowraville, with all project activities being coordinated and backed by an extensive awareness raising and training program.	\$180,000
NSW2000/213	Singleton Telecentre	Upper Hunter Business Enterprise Centre Ltd	This project established a telecentre in Singleton, promoting and providing Internet access, training and selected other business services to the local community.	\$130,000
NSW2000/215	Lightning Ridge and Collarenebri Local Call Internet Access	Walgett Shire Council	This project installed Points of Presence, providing local call Internet access for the first time, in Lightning Ridge and Collarenebri.	\$179,000
NSW2000/216	Walgett Community Internet Access Centre	Walgett Shire Council	This project established a telecentre in Walgett, and outreach centres in Collarenebri and Grawin, providing Internet access, training and selected other business services to the local communities.	\$142,500
NSW2000/217	Clunes Telecentre	Clunes Old School Association	This project established a telecentre in Clunes, promoting and providing Internet access, training and selected other business services to the local community.	\$110,900
NSW2000/218	Tottenham & Trundle	Lachlan Shire Council	This project installed Points of Presence providing local call	\$179,000

	Local Call Internet Access		Internet access for the first time in the Tottenham and Trundle areas.	
NSW2000/220	Armidale Smart City	Armidale Development Corporation	This project investigated a range of options to attract and reticulate broadband infrastructure for the Armidale area.	\$75,000
NSW2000/221	Black Stump No More	Griffith Skills Training Centre Inc and Carrathool Shire Council	This project installed a Point of Presence, providing local call Internet access for the first time in the Hillston area.	\$92,000
NSW2000/224	Coonamble Shire Remote Online Access	Coonamble Shire Council	This project established outreach centres in Carinda, Quambone and Gulargambone, providing public Internet access, training and other services, with support from the ongoing, NTN-funded Coonamble Telecentre.	\$100,000
NSW2000/227	Wellington Valley Network	Wellington Information Neighbourhood Services Inc	This project established a telecentre in Wellington, promoting and providing Internet access, training and selected other business services to the local community.	\$123,000
NSW2000/229	Networking The Shoalhaven	Illawarra Forum Inc	This project established public Internet access points in 9 community service agencies throughout the Shoalhaven area, enabling the service providers and their disadvantaged target groups in particular to become familiar with the Internet and online services.	\$104,000
NSW2000/231	NSW Local Government IT Strategic Framework	Local Government & Shires Association of NSW	This project developed a strategic framework to assess and support future opportunities and proposals for NSW councils to utilise information technology and online services.	\$25,000
NSW2000/234	Lower Lachlan Mobile Telephone Coverage	Lachlan Shire Council	This project has provided digital mobile phone coverage in Lake Cargelligo, Tullibigeal and the surrounding areas.	\$246,000
NSW2000/239	Armidale Aboriginal Access to Communication Technology	Oorala Aboriginal Centre	This project established eight Internet public access points, providing online access and training, in Aboriginal community organisations in Armidale, Guyra and Uralla.	\$179,718
NSW2000/247	Central Darling Shire Mobile Telephone Coverage	Central Darling Shire Council	This project provided digital mobile phone coverage in Wilcannia, White Cliffs, Menindee, Ivanhoe and the surrounding areas.	\$810,000
NSW2000/249	Murray Shire Mobile Telephone Coverage	Murray Shire Council	This project provided digital mobile phone coverage for the town and surrounding areas of Mathoura.	\$150,000

NSW2000/251	Liverpool Plains Mobile Telephone Coverage	Gunnedah Shire Council	This project provided digital mobile phone coverage in and around farming communities in the shires of Gunnedah, Quirindi and Coonabarabran.	\$190,000
NSW2000/255	Yallaroi Shire Mobile Telephone Coverage	Yallaroi Shire Council	This project provided digital mobile phone coverage in Warialda and the northern part of Yallaroi Shire.	\$140,000
NSW2000/259	Coolamon Shire Mobile Telephone Coverage	Coolamon Shire Council	This project provided digital mobile phone coverage in Ardlethan, Coolamon and the surrounding areas.	\$87,500
NSW2000/263	Coleambally Irrigation Area Mobile Telephone Coverage	Murrumbidgee Shire Council	This project provided digital mobile phone coverage in Coleambally and the surrounding area.	\$90,000
NSW2000/264	Rural Link Program	NSW.Net (State Library of New South Wales)	This project provided broadband access to selected organisations serving as hubs in at least 70 rural communities throughout NSW, which would otherwise not gain such access in the foreseeable future. One or two other centres in each participating town also obtained NTN-subsidised, enhanced bandwidth from hooking into the respective hubs via a range of innovative technology which served as a model for other interested users.	\$3,990,000
NSW2000/265	Wakool Shire Mobile Telephone Coverage	Wakool Shire Council	This project provided digital mobile phone coverage in Moulamein, Wakool and the surrounding areas.	\$155,000
NSW2000/268	Opening the Farm Gateway	Institute for Rural Futures and The North West Service Providers (NWSP)	This project employed a qualified practitioner to provide information technology training and support for geographically isolated individuals, community organisations, farmers and small business owners throughout the north west of NSW.	\$165,664
NSW2000/275	Central West Support Net	OCTEC Incorporated	This project provided online access and training for a wide range of disadvantaged groups in the Central West region of NSW, through the use of a specially modified mobile facility, backed by a lending library of computer hardware and software and a tailored website.	\$236,460
NSW2000/283	Conargo Mobile Telephone Coverage	Conargo Shire Council	This project provided digital mobile phone coverage for the town and surrounding areas of Conargo.	\$115,000

NSW2000/284	Riverina Regional Telecommunications Strategy - Stage 3	Riverina Regional Development Board	This project developed a demand aggregation study, business case and tender exercise to attract enhanced telecommunications services to the Riverina region, advancing an earlier study also funded by NTN.	\$125,000
NSW2000/291	Barraba, Bingara and Manilla Mobile Telephone Coverage	Barraba Shire Council	This project provided digital mobile phone coverage in Barraba, Bingara, Manilla and the surrounding areas.	\$90,000
NSW2000/297	Kempsey Koori Community Network	Guri Wa Ngundagar Aboriginal Corporation	This project established public Internet access points at five indigenous organisations across the Kempsey area, backed by training and support for users of these facilities.	\$175,000
NSW2000/298	Local-e Online Action for NSW	Lgov NSW	This project provided councils across rural NSW with the capacity to deliver 10 high priority and 15 medium priority services online. It also provided interested, participating councils with e-procurement and geo-spatial applications. This was backed by ongoing training and support. It built on a related NTN project which funded standardised websites for councils with the functionality to drive these new initiatives. PROJECT IS ACTIVE	\$5,091,521
NSW2000/301	Mungindi Mobile Telephone Coverage	Moree Plains Shire Council	This project provided digital mobile phone coverage in Mungindi and the surrounding area.	\$120,000
NSW2000/304	Gunning Shire Mobile Telephone Coverage	Gunning Shire Council	This project provided digital mobile phone coverage in Gundaroo and the surrounding area.	\$90,000
NSW2000/305	Nambucca E-Resources	Nambucca Shire Council	This project conducted a demand aggregation and business case exercise to attract enhanced telecommunications services to the Nambucca Valley.	\$35,000
NSW2001/306	Walgett Shire Mobile Telephone Coverage	Walgett Shire Council	This project provided digital mobile phone coverage in the eastern part of Walgett Shire, including the towns of Burren Junction, Collarenebri, Rowena, Cryon and Come-By-Chance.	\$565,000
NSW2001/307	Dungog Shire Mobile Telephone Coverage	Dungog Shire Council	This project provided digital mobile phone coverage in the Dungog shire region.	\$175,000
NSW2001/308	Walcha Shire Mobile Telephone Coverage	Walcha Shire Council	This project provided digital mobile phone coverage in the Walcha shire region.	\$301,570

NSW2001/309	Upper Clarence Mobile Telephone Coverage	Upper Clarence Community and Economic Development Organisation	This project provided digital mobile phone coverage in the Upper Clarence region of northern NSW.	\$290,000
NSW2001/310	Ebor & Tingha Mobile Telephone Coverage	Guyra Shire Council	This project provided digital mobile phone coverage in Ebor, Tingha and the surrounding areas.	\$140,000
NSW2001/311	Bland Shire Mobile Telephone Coverage	Bland Shire Council	This project provided digital mobile phone coverage in Weethalle and the surrounding area.	\$90,000
NSW2001/312	Harden Shire Mobile Telephone Coverage	Harden Shire Council	This project provided digital mobile phone coverage in Murrumburrah and the surrounding area.	\$40,000
NSW2001/316	Quirindi/ Parry Mobile Phone Coverage	Quirindi Shire Council	This project provided digital mobile phone coverage in the area surrounding Mt Terrible, near Werris Creek.	\$55,000
NSW2001/318	Moree Plains Mobile Telephone Coverage	Moree Plains Shire Council	This project provided digital mobile phone coverage across a large area around Moree.	\$792,242
NSW2001/319	West Coolah and East Gilgandra Mobile Telephone Coverage	Coolah Shire Council	This project provided digital mobile phone coverage in Mendooran and the surrounding area.	\$140,000
