

3-4-04

To The General Manager,  
Digital Broadcasting + Spectrum Management

I, like many Australians, could not imagine life without the ABC. An independent national public broadcaster is essential to our culture and democracy.

I therefore request no reduction in media outlets. No weakening of the cross-media ownership laws. Independence in the issuing of media licenses and the lifting of restrictions on the types of programs the ABC + SBS can multi-channel.

I sincerely request you think deeply and carefully on all these matters.

Yours faithfully,

Faye Watson
