

3/3/06

To whom it may concern  
(Hopefully John Howard)  
I would vehemently like to  
voice my objections to the  
rearmend of the A.B.C. I respect  
and love my A.B.C. as the only  
media outlet I can understand enjoy.  
If it is changed or lost I will not  
change my allegiance to a  
commercial station forgetting  
what has happened, I will  
forever voice my objection when  
ever I go to the election polls  
in the future. I am rapidly  
losing my opinion of politicians  
who do not want to allow us to  
have an unbiased + honest account  
of what is going on in the world  
independant of government  
manipulation. This relates to  
the basis of what democracy is!  
We cannot rely on our media sources  
if they are financially based on  
private ownership + interference.  
If we have a budget surplus!

cannot understand why the ABC  
cannot be funded adequately to  
operate efficiently and effectively  
instead of the 3rd rate system  
we have to put up with now.  
If you cannot do this I can  
only be more cynical as to  
your whenor motives to manipulate  
the population in controlling  
their information.

I want to be proud of  
belonging to Australia, not ashamed  
in the undermethic way we are  
reading. I have brought my  
children up on the ABC proudly  
but can't bring my grandchildren  
up in the same manner.

Yours sincerely + imploringly  
to take notice of what the  
people want, not the politicians,  
Zuelign... Robertson
