

NETWORKING THE NATION PROGRAM
PROJECT FUNDING LIST – TASMANIA
As at JUNE 2005

Note: Some of the Project Descriptions are currently under review

Project Number	Project Name	Project Recipient	Project Description	NTN Funding Provided
DTAS1997/001	Furneaux Island Telecommunications	Furneaux Enterprise Centre Inc	Funding enabled the development of a strategy to enhance their telecommunications infrastructure and services, and engaged a consultant to determine telecommunications needs.	\$10,000
DTAS1997/003	King Island Telecommunications	King Island Region Telecommunication Infrastructure Fund (RTIF) Group	The King Island community developed a plan to enhance their telecommunications infrastructure and services, and engaged a consultant to ascertain their telecommunications needs.	\$10,000
DTAS1997/015	Provision of Digital Mobile Network - Lyell Highway	Central Highlands Council	A needs analysis was undertaken in respect of mobile telephone coverage on Lyell Highway.	\$10,000
DTAS1998/032	Digital Media Industry Development Initiative	Contemporary Art Services Tasmania (CAST)	Development assistance funding was provided to investigate the potential to establish sustainable digital media access and training facilities in Tasmania.	\$10,000
DTAS1999/058	Access for People with Disabilities	Oak Enterprises Inc	The project explored the management structures necessary to establish and operate a lending bank of assistive technologies, specialising in equipment to enable people with disabilities to get online. The project acted as a stimulus to establish the Online Access for People with Disabilities (see TAS1999/090).	\$10,000
TAS1997/000	Tasmanian Electronic Commerce Centre	Tasmanian Electronic Commerce Centre Pty Ltd	An electronic commerce centre was established to provide industry groups and the business community to overcome barriers to the adoption of electronic commerce and to stimulate the demand for electronic commerce. The Centre undertook activities to increase the awareness and understanding of e-commerce, developed strategies for groups within industry sectors, carried out research, provided advice and training services.	\$4,500,000

TAS1997/001	Furneaux In Flow	Furneaux Enterprise Centre Inc	The Furneaux Island community developed a strategy to enhance their telecommunications infrastructure and services, and engaged a consultant to determine telecommunications needs.	\$35,000
TAS1997/003	King Island Telecommunications Infrastructure Project	King Island RTIF Group	A technical feasibility study into the telecommunications requirements for King Island was undertaken, including an analysis of the current services, benefits and viable options to improve the customer access network and mobile telephony services on the island.	\$34,760
TAS1997/004	Tasmanian Communities Online (TCO)	Tasmanian Department of Education	The project addressed issues of social and economic disadvantage in regional, rural and remote Tasmania by providing communities with access to online and communications information services and technology, community web publishing, education and training programs, and micro business development opportunities. The project also established the first 18 of 64 Online Access Centres for the State.	\$1,630,000
TAS1997/011	Electronic Commerce Initiative for Tasmanian Tourism Industry	West North West Regional Tourism Ltd	Through implementing an electronic commerce initiative, the project has enhanced the capacity of small adventure and eco-tourism businesses to develop interstate and international markets, and provided a model for other business clusters. Additional funding to the original grant was provided to conclude construction of an online marketing, booking and sales facility for approximately fifty independent adventure and eco-tourism operators across regional and remote areas of the State offering over 300 holiday choices to the world.	\$420,875
TAS1997/019	Service Tasmania	Tasmanian Department of Premier and Cabinet	The project streamlined the delivery of government services and enhanced their accessibility to the community in rural and remote areas of Tasmania. Shopfronts have been established in targeted towns delivering services electronically and over-the-counter.	\$897,944
TAS1997/024	Integrated Electronic Business Networks	Braddon Business Centre Ltd	The project undertook a consultation process and the development of a business/implementation plan to establish an integrated electronic business network in the Burnie region, to provide Tasmania with a model for sustainable integrated electronic business networks.	\$42,520

TAS1997/025	Tasmanian Integrated Community Network Process	Tasmanian Department of Premier and Cabinet	The project was based upon a communications strategy and community workshops facilitated by the Tasmanian Government and commercial partners. Funds helped to develop and implement a coordinated and consultative integrated community network process to assist Tasmanian communities to identify issues, consider telecommunications options and technology requirements, and determine solutions to the identified problems.	\$374,003
TAS1998/017	OPEN-IT	Department of Education and other key education organisations in Tasmania	Funding was used to develop a strategic plan to establish an integrated approach to implement and deliver online education and training resources through all education sectors in Tasmania.	\$250,000
TAS1998/023	Telehealth Tasmania Network	Department of Health & Human Services	A statewide network of 27 telehealth facilities was established to promote more equitable access to health services for rural and regional Tasmanians. The facilities are providing improved access to specialist services, a wider choice of health services and providers, enhanced links between rural and remote General Practitioners and their patients, and integrated networks for active management and participation in the health of the community. Through the telehealth videoconferencing network, remote specialists meet "face-to-face" with rural and remote patients, local nursing practitioners and carers, rural general practitioners and physicians. The project used new and innovative technologies to move away from centralised institutions and facilities towards community based care and support.	\$5,595,880
TAS1998/040	Tasmania Business Online	Tasmanian Electronic Commerce Centre Pty Ltd	The project established a central online portal for electronic commerce across Tasmania, and has built infrastructure to support business and financial transactions, to accelerate the takeup of e-commerce and the development of electronic business networks across the Tasmania.	\$1,805,000
TAS1998/045	Community Services Sector Electronic Communications	Tasmanian Council of Social Services Inc	The project developed a strategic plan for the implementation of a network of telecommunications facilities for the community sector. The plan identified strategies detailing how telecommunications could improve access to services and the range of services available online.	\$19,502

TAS1998/046	Tasmanian Community Network - Stage 2	Tasmanian Department of Premier and Cabinet	This project formulated a set of communications strategies and tools to stimulate and achieve the successful establishment of a comprehensive Tasmanian Community Network. The project also provided technical and administrative support to regional taskforces and the Statewide steering committee, and facilitated activities to assist smaller local communities and interest groups to participate in the community network process.	\$538,000
TAS1998/047	Service Tasmania - Stage 2	eServices Group	This second stage of the Service Tasmania project expanded the network of shopfronts to deliver a wide range of electronic government services and created a single entry point for the community to access government services and information.	\$994,300
TAS1998/053	Tasmanian Communities Online - Phase 2	Department of Education	Phase 2 established an additional 44 Online Access Centres across Tasmania. The level of support for each centre was based on a formula relating to the population being served, ranging from a Level 1 for regional areas with a population of over 15,000, Level 2 for populations between 2,000 and 15,000, Level 3 for towns of less than 2,000 people, and Level 4 in smaller towns with no school or public library facilities.	\$4,450,000
TAS1998/055	Tasmanian Community Housing Network	Tasmanian Association of Community Houses Inc.	The project provided internet access for users and visitors to 23 Community Houses across regional Tasmania, supplementing the Housing Network's core activities in neighbourhood community services and information provision with a focus on assisting disadvantaged community sectors. The project also provided training in the use of computers and the internet.	\$164,800
TAS1998/056	OPEN IT - Stage 3	Tasmanian Department of Education	This project provided Tasmania state-wide delivery of online education for Kindergarten to TAFE levels across a range of education providers. 30 non-government schools without Internet access were assisted to install links to ensure they could share access to these courses.	\$1,682,150

TAS1999/057	Spring Aboard (Career Planning Information System)	Launceston City Council	The project established an online career planning service called Spring Aboard for northern Tasmania to assist and improve the regional labour market responsiveness to the region's employment, business and economic needs. The project trialled an interactive database/website to provide information on education, training, career paths and profiles for businesses, job seekers and education providers. Additional funding of \$52,000 was approved in late December 2001.	\$217,383
TAS1999/059	Telecommunications - the means to improved service delivery - Launceston Blueprint	Launceston City Council (LCC)	LCC developed a proposal to deliver its services online, in conjunction with the NTN assisted Service Tasmania Project which also delivered many online state and federal government services.	\$35,000
TAS1999/060	Network Access, Technology & Training for Tasmanian Farmers - NATT Program	Tasmanian Rural Counselling Inc	The project provided an education and training program to raise awareness, train farmers and encourage them to adopt online technologies.	\$346,784
TAS1999/061	Client and Staff Online Awareness, Training and Interaction	Moondani Inc	Open online access, training and education was undertaken for people with intellectual and physical disabilities, their carers and families through the Applicant's four houses in Brighton and New Norfolk.	\$30,400
TAS1999/064	NET TREK for people with disabilities	Independent Services Inc	The project provided open Internet access to people with disabilities for online information, services and communication.	\$3,259
TAS1999/072	OPEN-IT - Phase 3 - Online Course Material project	Department of Education	Phase 3 continued the provision of course materials online for kindergarten to year 12 curriculum, and improved schools' access to online materials and increased curriculum choice for students in rural and remote areas.	\$2,348,500
TAS1999/073	Tasmanian Community Network - Stage 3	Department of Premier and Cabinet	Stage 3 extended the earlier project activities to provide community awareness raising and championed the uptake of online technologies and the Internet.	\$529,023
TAS1999/075	Tasmanian Communities Online - Phase 3	Department of Education	This project provided further assistance to Online Access Centres, and gave regional communities additional resources to build local support to sustain the long-term viability of their telecentres. Overall, the project has established 64 Online Access Centres across the State.	\$1,045,000

TAS1999/076	LETYAS - Leading Edge Technology Advisory Services	Department of Education	A Youth Web Portal was established to enhance information resources and support services for young people and to assist them to build skills in using online information technology.	\$106,500
TAS1999/083	Equipment Upgrade	Devonport Online Access Centre Inc	Upgraded hardware and software and acquired new equipment for the NTN funded online access centre to meet its strong demand for services.	\$47,042
TAS1999/085	Advancing North West Business Online	Devonport Online Access Centre Inc	Undertook e-commerce awareness raising by providing training, education workshops and promotion targeting local small businesses.	\$38,500
TAS1999/086	Information & Consultative Gateway	Tasmanian Council of Social Services Inc	Established an online gateway/portal for the community welfare sector, welfare/community workers and the community to improve rural, regional and remote community access to expert information, advice and support.	\$70,000
TAS1999/087	Mersey Accessible Internet network	Orana Respite Care Centre Inc	Provided open access to online services for people with disabilities, their carers and support networks, including the establishment of a telecentre.	\$55,336
TAS1999/090	Tech Assist Online (Online Access for People with Disabilities)	Department of Education	Assisted people with disabilities to access online services through the establishment of an equipment lending bank dedicated to providing them with adaptive and assistive technologies (including specially modified hardware and equipment). The project increased the take-up of new technology and the Internet and introduced users to the opportunities that communication technology can provide. The project also provided an assessment service to determine the individual and specialised needs of its users.	\$1,437,385
TAS1999/093	Rural Youth Project	Sheffield Online Access Centre	Purchased additional hardware and software for the centre, to provide local youth with increased opportunities to benefit from online resources and provide a community focus for youth in the area.	\$6,800
TAS1999/101	Service Tasmania Project - Stage 3	Department of Premier and Cabinet	Improved State Government service delivery to rural, regional and remote communities, through providing a kick start for over-the-counter, voice and online access, supported by the use of online technology and telecommunications.	\$852,000
TAS2000/104	Equipment Upgrade for Meander Community Access Centre	Meander Community Access Centre	Upgraded an existing NTN funded telecentre.	\$18,326

TAS2000/105	Tasmanian Electronic Commerce Centre	Tasmanian Electronic Commerce Centre Pty Ltd	Additional funding provided for three years allowed the centre to continue its contribution to build up Tasmania's electronic commerce capacity and to encourage local business engagement in the information economy.	\$6,600,000
TAS2000/106	Launceston Online Access Centre	Launceston Online Access Centre	Upgraded an existing NTN funded telecentre.	\$55,857
TAS2000/107	Upgrade of facilities at Tasman Online Access Centre	Tasman Online Access Centre	Upgraded an existing NTN funded telecentre.	\$20,000
TAS2000/108	Expanded IT Resource Sharing	Burnie City Council	Established a telecommunications network to enable Councils in the region to share online resources and gain enhanced internet access. PROJECT IS ACTIVE	\$762,300
TAS2000/109	Upgrade of Hardware & Software	Geeveston Online Access Centre	Upgraded an existing NTN funded telecentre.	\$32,497
TAS2000/110	Upgrade and extension of IT equipment for the Deloraine Community	Deloraine Online Access Centre Inc	Upgraded an existing NTN funded telecentre.	\$28,141
TAS2000/111	Equipment Upgrade for the Tullah Online Access Centre	Tullah Progress Association Inc	Upgraded an existing NTN funded telecentre.	\$13,737
TAS2000/113	Integrated Community Network Project North West Tasmania	Burnie City Council	Installed an enhanced broadband telecommunications network within Burnie. Top up funding of \$60,000 was approved in 2001 to include Waratah- Wynyard Council into the existing network project that was undertaken by the applicant.	\$725,875
TAS2000/115	Upgrade of Technology Equipment for Rosebery Online Access Centre	Rosebery Community Council Inc	Upgraded an existing NTN funded telecentre.	\$20,085
TAS2000/116	Telecommunications Mobile Coverage	Furneaux Enterprise Centre	Identified and examined solutions addressing data/voice needs in the Furneaux Group of Islands, resulting in the submission of a new application for funding.	\$13,730
TAS2000/117	St Marys Mobile Online Centre	St Marys Association for Community Development	Funding established a public Internet access facility that was moved between small towns in the Break O'Day region that would not otherwise have local Internet access, and provided equipment to establish a PC based video conference service for St Marys Online Access Centre.	\$29,610

TAS2000/118	Central Product Inventory Management System (CPIMS)	Tourism Tasmania	Developed a whole-of-state tourism industry electronic commerce tool to consolidate the diverse range of Tasmanian tourism products and services into a central online inventory, to improve information access for visitors and to help the State become more competitive with other destinations.	\$500,000
TAS2000/119	Tasmania Central Internet Web Portal	Midlands Initiative for Local Enterprises & Northern Midlands Council	A project officer was employed to work with local micro businesses to build skills in and promote the adoption of telecommunications technology and ecommerce, and encourage the use of the Tasmanian Central Portal.	\$51,750
TAS2000/121	OACAT - Executive Support	Online Access Centre Association of Tasmania	Funding was used to establish a Secretariat to support and promote Tasmania's network of Online Access Centres.	\$258,400
TAS2000/124	Community Online Access Centre	The Bruny Island Community Association Inc	Upgraded an existing NTN funded telecentre.	\$5,490
TAS2000/125	King Island Telehealth	Department of Health and Human Services	Enhancement and upgrade of the NTN funded videoconferencing facility to ensure a sustainable system for the King Island community.	\$19,990
TAS2000/126	Enhancing the Future Of Online Access Centres in the Huon and Channel region of South Eastern Tasmania	The Channel Enterprise Inc	Employed a project officer to visit community groups and businesses in the region to promote e-commerce opportunities and the related services offered by the region's six Online Access Centres. Local businesses were actively involved in computer training, the development of web sites and e-commerce.	\$63,892
TAS2000/127	CARE NET ONLINE	Alzheimer's Disease & Related Disorders Society of Southern Tasmania Inc	Enhanced services for the carers and people with dementia in rural and remote areas using Internet technology, to improve the coverage of current services and establish new service models.	\$287,376
TAS2000/128	Huon Business Portal	Huon Valley Regional Development Board	Upgraded an existing NTN funded telecentre.	\$8,880
TAS2000/129	Tasmanian Communities Online	Department of Education	Extended the administration of the Tasmanian Communities Online project until the end of December 2002.	\$721,339
TAS2000/130	King Island Telecentre Project	King Island RTIF Group	Upgraded the Internet point of presence on King Island and provided a technical support service for the Island community.	\$157,114
TAS2000/131	Tasmanian Broadband Network	Northern Tasmanian Regional Development Board Ltd	Analysed the region's telecommunications market by undertaking a demand aggregation study to explore whether high quality, cost competitive broadband infrastructure access could be made available to regional Tasmania.	\$50,000

TAS2000/136	Telemedicine Service - Clarke & Cape Barren Islands	Tasmanian Aboriginal Centre Inc.	Established a telehealth service for Cape Barren and Clarke Islands for health, training and general community uses. Top up funding of \$30,000 was approved in 2001 to assess telecommunications solutions for the existing service.	\$557,100
TAS2000/139	Local Government Online Service Delivery Strategy	Local Government Association of Tasmania	These ten projects were the preliminary stages of a strategic approach to implement electronic service delivery and communications for Tasmanian councils and the community they serve. The projects encompassed all non-metropolitan Councils and will link with key related initiatives, especially TIGERS and Service Tasmania.	\$197,000
TAS2000/140	Tasmanian Government Online Procurement	eServices Group	Conducted trials of electronic procurement in selected State Government agencies.	\$484,250
TAS2000/141	Local Government Online Service Delivery Strategy – Interactions and Transactions	Local Government Association of Tasmania	These ten projects individual components of a strategic approach that implemented electronic service delivery and communications for Tasmanian councils and the communities they serve. The projects encompassed all non-metropolitan Councils and linked with key related initiatives, especially TIGERS and Service Tasmania.	\$50,000
TAS2000/142	Local Government Online Service Delivery Strategy – Local Government Entry Point Scoping Project	Local Government Association of Tasmania	These ten projects individual components of a strategic approach that implemented electronic service delivery and communications for Tasmanian councils and the communities they serve. The projects encompassed all non-metropolitan Councils and linked with key related initiatives, especially TIGERS and Service Tasmania.	\$35,000
TAS2000/145	Local Government Online Service Delivery Strategy – Hosting and Tools	Local Government Association of Tasmania	These ten projects individual components of a strategic approach that implemented electronic service delivery and communications for Tasmanian councils and the communities they serve. The projects encompassed all non-metropolitan Councils and linked with key related initiatives, especially TIGERS and Service Tasmania.	\$35,000
TAS2000/146	Local Government Online Service Delivery Strategy – Transactions and Customer Management Scoping Project	Local Government Association of Tasmania	These ten projects individual components of a strategic approach that implemented electronic service delivery and communications for Tasmanian councils and the communities they serve. The projects encompassed all non-metropolitan Councils and linked with key related initiatives, especially TIGERS and Service Tasmania.	\$40,000

TAS2000/147	Local Government Online Service Delivery Strategy – Services Identification	Local Government Association of Tasmania	These ten projects individual components of a strategic approach that implemented electronic service delivery and communications for Tasmanian councils and the communities they serve. The projects encompassed all non-metropolitan Councils and linked with key related initiatives, especially TIGERS and Service Tasmania.	\$225,000
TAS2000/148	Local Government Online Service Delivery Strategy – Navigation, Interaction and Transactions Publishing	Local Government Association of Tasmania	These ten projects individual components of a strategic approach that implemented electronic service delivery and communications for Tasmanian councils and the communities they serve. The projects encompassed all non-metropolitan Councils and linked with key related initiatives, especially TIGERS and Service Tasmania.	\$40,000
TAS2000/150	Local Government Online Service Delivery Strategy – Performance Measurement Online	Local Government Association of Tasmania	These ten projects individual components of a strategic approach that implemented electronic service delivery and communications for Tasmanian councils and the communities they serve. The projects encompassed all non-metropolitan Councils and linked with key related initiatives, especially TIGERS and Service Tasmania.	\$80,000
TAS2000/151	Local Government Online Service Delivery Strategy – Common Usage	Local Government Association of Tasmania	These ten projects individual components of a strategic approach that implemented electronic service delivery and communications for Tasmanian councils and the communities they serve. The projects encompassed all non-metropolitan Councils and linked with key related initiatives, especially TIGERS and Service Tasmania.	\$45,000
TAS2000/153	Local Government Online Service Delivery Strategy – Local Laws Online	Local Government Association of Tasmania	These ten projects individual components of a strategic approach that implemented electronic service delivery and communications for Tasmanian councils and the communities they serve. The projects encompassed all non-metropolitan Councils and linked with key related initiatives, especially TIGERS and Service Tasmania.	\$51,273
TAS2000/162	St Marys Online Access Centre Equipment & Software Upgrade	St Marys Association for Community Development	Upgraded an existing NTN funded telecentre.	\$34,450
TAS2000/166	Equipment Upgrade for Penguin Online Access Centre	Penguin Online Access Centre	Upgraded an existing NTN funded telecentre.	\$18,915

TAS2000/173	Dover On-site On-line	Dover Community Telecentre Inc	Upgraded an existing NTN funded telecentre.	\$26,675
TAS2000/174	Equipment Upgrade for Smithton Online Access Centre	Smithton Online Access Centre	Upgraded an existing NTN funded telecentre.	\$21,450
TAS2000/181	Winnaleah Online Community/Business Training, Equipment update and expansion for the Winnaleah Online Access Centre	Winnaleah Online Access Centre Inc	Provided additional training and equipment upgrade for three existing NTN funded telecentres in Derby, Ringarooma and Winnaleah.	\$47,300
TAS2000/187	Ouse Online Additional equipment	Ouse Online Access Centre	Upgraded an existing NTN funded telecentre.	\$9,681
TAS2000/188	Lorinna Online	Lorinna Residents and Ratepayers Association Incorporated	Purchased computer hardware, software, furniture and associated equipment to establish a telecentre and provide a wider range of online services and facilities for the local community.	\$6,526
TAS2000/189	Upgrading of computer equipment at Ridgley Online	Ridgley Online Access Centre	Upgraded an existing NTN funded telecentre.	\$5,950
TAS2000/2	The King Island Telecommunications Infrastructure Project	King Island RTIF Group	Funding established a CDMA mobile telephony and wireless local loop service on King Island.	\$1,851,001
TAS2000/200	Tasmania's E-Heritage	Department of Education	Installed equipment and provided Internet access, online training and support to the State's 150 local historical societies. This provided community volunteers with exposure to online technologies, and developmental skills to establish and maintain online presences.	\$434,000
TAS2000/215	King Island Online Access Centre	King Island Regional Development Organisation	Upgraded an existing NTN funded telecentre.	\$8,772
TAS2000/220	Yolla Online Upgrade	Yolla Online Access Centre Inc	Upgraded an existing NTN funded telecentre.	\$31,130
TAS2000/223	Expanding Horizons Ulverstone Online	Central Coast Council	Upgraded an existing NTN funded telecentre.	\$4,990
TAS2000/225	Lower Channel Mobile Phone Implementation	The Channel Enterprise Inc	Provide a mobile telephone coverage for the Lower Channel region of Tasmania.	\$210,000
TAS2000/235	A world of difference	Ashley Youth Detention Centre	Established an online access facility for residents of the Ashley Youth Detention Centre.	\$40,000

TAS2000/236	Digital Technology in Sorell	Sorell Online Access Centre	Upgraded an existing NTN funded telecentre.	\$27,919
TAS2000/238	Flinders Island Telehealth Enhancement	Department of Health and Human Services	Expanded the existing NTN-funded telehealth facility to increase service range and quality for the Island's community.	\$66,630
TAS2000/241	Ravenswood Online Access Centre (ROLAC)	Ravenswood Walk Tall Association	Upgraded an existing NTN funded telecentre	\$26,800
TAS2001/243	Oatlands Online Access Centre	Oatlands Online Incorporated	Upgraded an existing NTN funded telecentre.	\$27,250
TAS2001/245	Queenstown Online Access Centre Equipment upgrade	Tasmanian West Coast Business Development Inc	Upgraded an existing NTN funded telecentre.	\$20,745
TAS2001/247	Ulverstone Online Upgrade	Central Coast Council	Upgraded an existing NTN funded telecentre.	\$19,738
TAS2001/248	Re-location of the Winnaleah Online Access Centre	Winnaleah Online Access Centre Inc	Assisted the Winnaleah Online Access Centre in its relocation to larger, more accessible premises on the school grounds.	\$11,825
TAS2001/249	Margate Online Access Centre	Margate Online Association Inc	Upgraded an existing NTN funded telecentre.	\$7,584
TAS2001/252	Upgrade of WOAC IT Facilities and Training	Wynyard Online Access Centre	Upgraded an existing NTN funded telecentre.	\$26,675
TAS2001/253	St Helens Online Service Extension	St Helens Online Inc	Upgraded an existing NTN funded telecentre.	\$18,222
TAS2001/254	Bruny Island Online Upgrade	The Bruny Island Community Association Inc	Upgraded an existing NTN funded telecentre.	\$20,026
TAS2001/255	Equipment Upgrade for Exeter Online Access Centre	Exeter Online Access Centre	Upgraded an existing NTN funded telecentre.	\$9,141
TAS2001/256	Outreach Project	Orana Respite Care Centre Inc	Established and promoted an outreach technical service for people with disabilities and their carers to access and use online services in their homes. This project built upon the NTN-funded Mersey Accessible Internet Network Project (TAS1999/087).	\$7,000
TAS2001/257	Electronic Procurement Scoping Project	Local Government Association of Tasmania	Encouraged the take up of electronic commerce by local councils	\$120,000
TAS2001/260	Bagdad Online Access Centre	Bagdad Online Access Centre	Upgraded an existing NTN funded telecentre.	\$7,307

TAS2001/263	NATT PROGRAM (Network Access Technology & Training)	Tasmanian Rural Counselling Inc	Funding was used to respond to the demand for on-farm training provided by the previous NTN-funded NATT project, and increased the takeup of online technologies and services in Tasmanian rural communities	\$148,500
TAS2001/264	Equipment upgrade	Richmond Online Access Centre Incorporated	Upgraded an existing NTN funded telecentre.	\$17,659
TAS2001/265	Information Technology for Seniors, incorporating "Compassionate Computers"	Linking Tasmanian Seniors Inc	The project provided presentation equipment to improve communications technology training to seniors in regional Tasmania, through a series of 21 well attended seminars.	\$11,494
TAS2001/268	Bracknell Online Office Facility	Bracknell Online Access Centre	Upgraded an existing NTN funded telecentre.	\$8,250
TAS2001/269	Equipment upgrade	Burnie Online Access Centre	Upgraded an existing NTN funded telecentre.	\$28,089
TAS2001/270	Dover Telecentre & Online Access Centre	Dover Community Telecentre Inc	Upgraded an existing NTN funded telecentre.	\$2,000
TAS2001/274	Increasing Services of Community Access Centre	Glenora Online Access Centre	Upgraded an existing NTN funded telecentre.	\$17,584
TAS2001/275	Authentication, Privacy and Security	Local Government Association of Tasmania	Developed a set of privacy and security guidelines for Tasmanian councils to resolve issues related to authentication matters all of which are essential elements of online services.	\$300,000
TAS2001/278	Local Government Entry Point Implementation	Local Government Association of Tasmania	Built and implemented a Local Government entry point.	\$940,000
TAS2001/279	Project Management and Common Elements	Local Government Association of Tasmania	Overall management and coordination of Local Government Association of Tasmania NTN funded projects and development of common elements for use by councils which included lower level templates, procedures and other tools.	\$748,000
TAS2001/280	Services - initial 10	Local Government Association of Tasmania	Developed and implemented an initial suite of ten local government services	\$1,095,000
TAS2001/281	Services - remaining	Local Government Association of Tasmania	This project extended the development and implementation of 50 online services.	\$1,467,333

TAS2001/283	Equipment Update and Expansion	Bridport Online Access Centre Inc	Upgraded the existing NTN-funded Bridport and Ringarooma Online Access Centres.	\$18,810
TAS2001/284	Bothwell Online additional equipment and upgrade	Bothwell Online Access Centre Inc	Upgraded an existing NTN funded telecentre.	\$11,550
TAS2001/286	Equipment Upgrade for Edith Creek OAC	Edith Creek Online Access Centre Inc.	Upgraded an existing NTN funded telecentre.	\$15,144
TAS2001/287	Equipment Upgrade for the Spring Bay Community Access Centre	Spring Bay Online Access Centre Inc.	Upgraded an existing NTN funded telecentre.	\$13,732
TAS2001/288	Upgrade of equipment and software for Bicheno OAC	Bicheno Online Access Centre	Upgraded an existing NTN funded telecentre.	\$25,954
TAS2001/289	Centre Upgrade 2001	Launceston Online Access Centre	Upgraded an existing NTN funded telecentre.	\$29,114
TAS2001/291	Service Expansion through Equipment Upgrade	Beaconsfield Online Access Centre	Upgraded an existing NTN funded telecentre.	\$21,273
TAS2001/292	Cygnets Community Online Centre	Cygnets Community Online Centre	Funding established a Community Access Centre in Cygnets.	\$98,822
TAS2001/293	Extension of Mobile Phone Coverage - Marrawah area	Circular Head Council	This project provided digital mobile telephone coverage in the Marrawah area.	\$512,500
TAS2001/294	Eaglehawk Neck and surrounding areas mobile phone service implementation	Eaglehawk Neck Community Hall Association Inc	This project provided digital mobile telephone coverage in the Tasman Peninsula area.	\$285,000
TAS2001/296	Mobile phone coverage for major tourism areas of Central Highlands	Central Highlands Council	This project provided digital mobile telephone coverage in parts of the Central Highlands region.	\$435,000
TAS2001/297	Online Access Centre (Cape Barren Island)	Cape Barren Island Aboriginal Association Inc	Funding established a public internet access centre and meet initial operating expenses for the Island community.	\$87,344
